The Branch Press at Mysore.

Pro Camp No. 606-10½
d: 15th Nov. 1891

Origin of the Branch Press & the objects for wh. it has been established.

* Paper No. (1) in Part ~~IV~~ II of this file — No. 135 of 1892-93, relating to the Establishment of the Branch Press at Mysore, ~~Shows the origin of the Same~~ contains the order for starting that Press as a purely Govt. institution. After having worked for some time, at the Jagan mohan Palace, as a quasi Govt. institution, it was in the terms of G.O. C.R. No. 606-10½ dy 15th Nov. 1891, (referred to above) ~~adopted as a~~ directed

that the Press Shd. be entirely treated as a Govt. institution. Before this change, the Press had been used mainly for the printing of ~~useful~~ ~~works~~ instructive publications for the supply of Govt. Schools and useful works in Kannada literature. It had also been doing work for the Govt. when the latter was at Mysore. When it was taken over by the Govt. as a whole, it was intended in the same order that the Branch Press, Shd. in addition to the work mentioned above, be entrusted with a portion of the work ~~done~~ that was then done

at ~~the Central Press at~~ Head Quarters ~~Bangalore~~, under great pressure and some inconvenience, such as that of printing Archæological Inscriptions, useful M.S.S. in connection with the Oriental Library, and forms and other matter for the several Departments. With a view to enable the Branch to support itself, it was also allowed to undertake private jobs when the state of public work would permit it.

Re Establishment & Cost

2. The Establishment was as sanctioned in October 1891, to consist of 18 hands, (as detailed below) & to cost Rs 153 per mensem:

1	Foreman	Rs 50
2	Compositors	Rs 50
3	Printers	Rs 44½
1	Attest Pressman	Rs 5
4	Binders	Rs 25½
2	Servants	Rs 8
		Rs 153

2/1871

A proof reader on Rs 60 p.m. was subsequently added. In May 1901, on the recommendation of the Supdt., the pay of some of the hands was increased, thus raising the monthly cost of the Establishment by Rs 10. In December 1894 a temporary addition of 3 more hands was sanctioned to facilitate the publication of an Oriental work, assisted by the Oriental Library. There were already 5 Compositors in the Press temporarily entertained for doing the work of the Oriental Library. The whole of the temporary establishment, thus strengthened as sanctioned it stood in Dec. 18, consisted of Standard.

Cost of Rs 95 per month. A watchman on Rs 6 and a peon on Rs 7 were also temporarily sanctioned subsequently.

The Establishment was as a whole revised in November 1896 the whole of the temporary establishment was abolished excepting the watchman and the peon, and the number & the cost of the permanent establishment were revised to 6 hands and Rs 116 per month respectively. The Scale as thus revised consisted of

trained permanently in Feby. 1897, thus raising the Cost again to Rs 129. No material changes have taken place since then in the number & the Cost of the Establishment except that the pay of the Foreman and the Proof Examiner were made to start from Rs 45 and Rs 20 respectively, the maximum pay of the former viz., Rs 60 being reached by four annual increments & that of the latter viz., Rs 25 by two.

3. The Profit and Loss Accounts of the Branch Press have been kept in accordance with G.O. No 606-10½ dy 15th Nov. 1891, to be

Receipts & Expenditure of the Press

Submitted to Govt. by the Supdt of the Govt. Press at the End of every month These don do not seem to have been punctually prepared and sent. The accounts were however called for in May 1894, and on comparing the results for 2 months since the date of Establishment of the Branch Press, it was observed that ~~there was~~ the Branch Press was working at an average profit of Rs 126 a month and that the profit was largest during the Dasa. rah.

In March 1899 Similar Statements were called for, for twelve months, (from September 1897 to August 1898.) and were accordingly submitted

by the Superintendent with his docket No. 857 dy 13.3.99 and these show that the average value of work turned out by the Press during each month was about Rs 829-8-7 the cost of the Establishment, since February 1899 has already been noted to be Rs. 129. Since the system of Piece-Work has been introduced into the Branch Press (in Nov. 1896), the monthly Expenditure on account of piece work, and the Contingency charges & other charges may have to be ~~deducted from~~ added to the ~~Rs~~ to monthly Cost of the Press. There are no As the total expenditure is not mentioned in the Statement

ments referred to above, what the actual profit of the Press was, is not calculable. From para 10 of the Report on the Govt Press for 1900-1901† the following information in regard to the Govt Branch Press is given:—

The Supdt has also remarked in the said Report that the major portion of the work done in the Branch Press was for the Revenue Office and the Education Deptt.

The Branch Press at Mysore is an auxiliary to the Govt Central Press at Bangalore. When there is pressure of work in the Press at Bangalore, work is sent to the Branch Press. It is also very useful when the Govt

post to Mysore during the Dasara and other occasions. Some work connected with the Archæological Deptt and the Oriental Library appears also to be done at the Branch Press. at Mysore.

7/2/02

On the whole it would be better to centralise such Deptt & have only one press in Bangalore But this would be only feasible if proper arrangements for carrying out Dasara & Season work in Mysore can be made by the Deptt without undue expense, or if we can utilise one of the local presses. The latter arrangement does not se

to be advisable. The
Supt to may perhaps
be asked to say
whether the former
alternative can
be carried out:

63 Docket No. 895 of 28th Febry. 1902, from the Supdt. Govt. Prss. (Printing of Dumrah address at Mysore)

64. 2. Letter No. 922 of 10th March 1902 from the Same Office (addition of the Brandreth).

The first of the two papers cited above is in reply to certain Enquiries that were desired to be made by the Hon'ble Councillor (Vide Serial No. 3) and made by means of this Office docket No. 13972, of 24th Febry. 1902. It having occurred to the Supdt. that there was an extra Expenditure incurred in printing the Dewan's last Dasara address at Mysore, he brought the fact to the notice of Govt. in his letter No. 557 of - Nov. 1901 & while doing so

Note :- Section III of this file, which contains from 8 to 63 100 is not found in the file.

so desired to know "whether
"it is not possible to prepare
"the 'Copy' of the Speech so
"as to prevent the extra
"Expenditure." He was requested
to propose any arrangement
for carrying out Dussehra
work without undue expense.
In the letter under reference
in his reply to this request,
the Supdt. has no such ar-
rangement to propose,
but simply informs that
post "that of the work has
"to be done in (sic) Mysore,
"the Expenditure is not
"undue." He adds, that
"there is no other alter-
native train to get the
work done in Mysore
even at extra cost, if
"the post decide to get it done
at Mysore." That the
work in question will
have mostly to be done
at Mysore is sufficient

2. In connection with the Supdt's letter No. 5570 of Nov. 1901, refd. to above ~~[illegible]~~ ~~[illegible]~~ Supdt. had raised the question of the abolition of the Branch Prem. And a formal suggestion from the Supdt. (No was subsequently received (this docket No. 2720 — Ser no. 5) Before disposing of this paper the reply to this office docket No. 13972 refd. to in the 1st para / above / was awaited. The present letter repeats the proposal but this time with the Supdt's. grounds for it wh. didn't find place in the previous docket.

3. As regards the objects for wh. the Branch Prem. was originally intended the Supdt., says, "The main "object of opening this "Branch at Nagpore appears "to have been for the "purpose of printing

usually the Diwan's address to the Representative Assembly at Bangore, and later on to secure sufficient work for the Press, the Oriental Library work was taken. Recently work from other "Departments also had to be sought for." The Same. Shewn by the papers this file were mentioned at length in the previous Note (of which this is in "Continuation"). It wd. perhaps appear from the Same that, contrary to what is said above, in the last, as regards the Oriental Library part transactions, the Press was a local necessity.

4. As regards the financial side of the question, the Supdt. says that the annual Outlay on the Branch, including the

Piece Work Estab. of the contingency expenses, is Rs 5208 But he does not estimate the value of the work that is being turned out by the Pres. In the previous note the fact that it has been working at a profit has already been shewn. It may be added now that the Expenditure of the Pres was Rs. 4182-13-4 for the year 1899-900 & Rs. 4140-9-1 for 1900-1, the receipts (i.e. the value of work done) were Rs. 8713-15-2 & Rs. 8908-10-4 respectively

5. In para 2 of the Dipl. letter, he proposes that the Members of the Branch Pres Estab. who have put in more than 5 years of Service may be brought over to the Central Pres (the rest

being (apparently as in the case of the Central Prem. Sent home;) that the machinery &c. may be left at Mysore till next October when the Supdt. will be in a position to know what portion of them will be required for Dussehra purposes, such being left at Mysore & the rest transferred to Bangalore. He proposes also that one man may be employed at Mysore to watch the machinery &c.

6. As regards the types &c. belonging to the Oriental Library, the Supdt. suggests that they may be removed to the Central Prem; & if the Curators of the Oriental Library desire otherwise, that the machinery & the building

be rented out therein on condition that they shd. keep them in good order ~~that~~ share them for the months of Dusserah work in September & October of every year The Inspector General of Education & the Curator ~~sold~~ ~~first~~ may, perhaps, have to be consulted as to the removal of their work to the Central Press and the disposal, in the manner suggested by the Supdt., of the Establishment of the Press intended for their purposes, &c.

Submitted for orders.

The above order abolishing the Branch Press at Mysore was communicated to the Superintendent Govt. Press in Govt. Pro: No. 1651617 / G.7135 of 02 d: 8/4/02.

Thereupon the Superintendent has now reported in his letter No. 1023 d: 21st April 1902, the steps taken by him to give effect to the above Pro: He submits the following seven statements:—

No (1) Showing the materials left at Mysore for Dasara work

" (2) Showing the materials selected for removal to Bangalore

" (3) Showing the unserviceable articles fit for sale by public auction.

" (4) Showing the materials belonging to the Oriental Library

" (5) Showing the employees having more than 5 years' service

" (6) Showing the employees having less than 5 years' service

" (7) Showing present and proposed establishment and profit to Govt.

and reports that the materials and plant mentioned in Statement

Statement No. 4. were handed over to the Curator Oriental Library, that the employees mentioned in No. 5 were ordered to report themselves for duty at the Central Press from 1st May 1902. and that the services of those mentioned in Statement & No. 6 were dispensed with. It is ~~stb~~ submitted that out of 15 men mentioned in Statement No. 5, two (Foreman and Proof Examiner) are shown as willing to join the Central Press at Bangalore, two (Peon Rs 6/ and P. M. Peesman on Rs 6/) as having been retired, and the rest as not willing to join the Press. But the Superintendent has not reported as to how the two men were retired and whether those unwilling to join the Central Press have resigned their appointments or if otherwise what he proposes to do with them. Again out of 9 men mentioned in Statement No. 6, the cases of two are shown as deserving

deserving the special con-
-sideration of Govt. and
5 men are shown as willing
to go to Bangalore. It is
doubtful how these remark
~~in this statement~~ of the
Superintendent in this state
ment can be favourably
viewed by Govt in the
face of the express order
conveyed in the Govt Ord
above referred to viz. that
the services of those of
the establishment who
have put in not more
than five years' service
will be dispensed ~~with~~
with.

In this letter, the
Supot further brings to
the notice of Govt that
for the sake of oriental
library, the curator
desires to maintain a
small establishment at
Mysore and says that
if Govt should sanction
the necessary funds, he
would undertake to
supervise all Govt work
done in the Branch Press,
maintain the accounts and
pay the men. The Supot
approves.

approves of the curator's proposal on condition that the general control over the bribding, materials and execution of work is left to him. and adds that he has desired him to make his application to Govt. It seems that the curator communicated with the D. Dt. of Education who has now written letter No. 9884/324 × d. 10th May 1902. proposing to establish a separate press at Mysore for the sake of Oriental library. The D. Dt. of Education says that the Branch Press at Mysore has been abolished without consulting him, that in consequence the work of the Oriental library and other educational work done hitherto therein suffer, that for a long time, both under Mr Garrett and Mr Rice, a separate educational Press was maintained

× S.L. No 67

maintained for all
educational work, that
on the reorganization of
the Govt Press some years
ago, the provision ~~of the~~
for the educational Press
was absorbed in that of
Govt Press, that now the
necessity for reviving a
separate educational Press
has arisen again both
in the interests of the
oriental library and Edn
-cational dept, that
the educational work done
at the Govt Press has
not always given satis-
-faction and that
therefore, if Govt
approves he is willing
to undertake the control
of a properly equipped
educational Press at
Mysore for the printing of
all educational publica
-tions under a competent
manager. He requests
that if this cannot be
done some adequate
provision should be
made for the printing
work

work of the oriental library which cannot be satisfactorily done at Bangalore when the curator and his copyists and proof-reader are at Mysore.

3. Another letter × has also been received on the same subject from the Dt. Gl. of Education in which he says that the work of printing the Sanskrit books of the Oriental Library Series has come to a stand-still, that this work cannot be done at the Central Press, Bangalore as the Press has neither Devanagari type nor Devanagari compositors and solicits the sanction of Govt. to reorganize a Press called the Oriental Library Press independent of the Supdt. Govt. Press, with the establishment noted in the margin, costing Rs 160 per mensem for carrying on the work of printing Sanskrit works.

The D. General further recommends that a small establishment costing Rs. 28 per mensem may also be added to the above establishment for the sake of printing old Kanarese works which can best be done under the direct supervision of the staff employed at the Oriental library.

In letter No. 1134/386 d. 27th June 1902, the D. G. further points out the inconvenience felt about printing the question papers of the educational institutions in the Mysore City and requests that either the Branch Press at Mysore may be reopened or a separate educational Press for all kinds of printing in connection with the Oriental library at Mysore may be established.

It is submitted that the cost of the permanent

establishment of the Branch Press at Mysore was Rs ~~5308~~ 5308-0-0 per annum. Deducting from this, the cost of the two employees transferred to the Central Press and of two peons for watching the building and the machinery at Mysore viz Rs 1164-0-0 per annum, the annual Saving ⊗ by the abolition of the Branch Press at Mysore is ——— Rs 4144-0-0 per annum.

The cost of the educational Press proposed to be established at Mysore is Rs 2256 per annum. Even though with the establishment of such a Press, there is a saving of Rs 1888 per annum, yet it has to be considered that for the execution of emergent printing work in Dasara & other occasions, ~~to each curator each~~ will have ~~not~~ funds, to be sanctd. & this is done, there will appear, be actually no profits to get by the abolition of the Branch Press.

⊗ Note
This Saving is subject to the condition that those shown in Stt No 5 as not willing to go to Bangalore are neither reentertained nor given any pension.

As per orders of the Dewan on Sl. No 65, the Graduates' Trading Association was asked as to whether they would undertake to do Govt. Printing work at Lucyne to which they replied in the affirmative. The papers have been since returned to Office by Mr. Shamu Rao with the following remarks:—

"Mr. Jaya Rao is dead, and "I do not think that we shall be "able to know anything definitely "in time to come."

(Sd.) M.S. 3/9/02

There seems to be real need for having at Mysore a small Press Establishment on account of the work of the Oriental Library, which can be satisfactorily executed and executed only at Mysore. The Kannada Translator wants provision for Kannarese work, and the Principal of the College wants provision for the printing of Examination papers (English and Kannarese) Govt also have some work to be done in English and Kannarese during the Dasara. The Graduates' Association have expressed their willingness to do our work & at reasonable rates, but it is doubtful whether they have the resources to do all the various kinds of work above recited, particularly the Devanagari work.

All things considered it seems best to revive the Branch Press at Mysore on a limited scale. Having a ~~Branch~~ separate Press for

The queries put by the 3rd Councillor were communicated to the Superintendent, Government Press, in this Office Docket No. 1300 / G. F. 135-92, dated 22nd July 1902. His reply has not yet been received.

No. 1132-3 / 47, dated 1st August 1902.

The Inspector General of Education now reports that the examinations in Kanarese and Sanskrit for the Junior classes of the Maharaja's College, Mysore, were not held last month as the Superintendent of the Govt Press refused to print the papers, that the examination of the Senior classes is to take place in August and that therefore early orders may be passed on his previous communications

as regards suitable arrangements being made for printing the Vernacular and Sanskrit papers of the Maharaja's College and other institutions in Mysore and also for printing the Sanskrit and Kannada publications of the Oriental Library at Mysore.

If early orders on the above points cannot be passed, Mr. Bhabha requests that the annual contingent allowance of Rs 313-2-0 of the Maharaja's College may be increased by Rs 80/-, so that the examination papers may be printed at a private Press.

As the question of reviving or otherwise of the Branch Press at Mysore remains some time for decision

No 114 d: 27th Augt 02.

The Supdt, Govt Press has submitted his replies to the several queries put in this office

No 1300 dt 22nd July 02;
G17135-92

He states that the Foreman and the Examiner of the Branch Press Ests are borne on the Central Press Est at Bangalore as supernumeraries and will be absorbed in the fixed Ests as vacancies occur; two peons are retained as watchmen at mysore; one peon and one piece worker are willing to retire; 9 men under five years' service have been ~~ordered to go home~~ thrown out and 8 men (one Atkol Pressman and seven piece workmen) have been asked to avail Govt orders at mysore.

2) The amount of work of the value of Rs 7222-11-0 done for the Oriental library at mysore for 3 years from Apl 99 to March 1902, forms more than 50 p.c. of the work ~~done~~ turned out by the Branch Press.

3) The Educational series of the Kannada work was being executed at the Branch Press mysore and now the same is done in the Central Press Bangalore as well as at the Br Press mysore work being sent from here.

4). Question papers of different schools at mysore and of the terminal Examinations were being printed in the Br Press mysore.

5) Before the abolition of the Branch at mysore, the Curator

of

The proposed cost of the establishment is Rs 2256 a year.

Please see serial Nos 68 and 68(a)

of the Govt Oriental Library was consulted and the state that a small Estt to carry on the Sanskrit work of the Oriental Library was quite necessary at mysore and that he would move the Govt thro' the Insp. Genl of Education.

The Supdt states that the above circumstance has been brought to the notice of Govt with whom the matter is still pending; and he has also submitted an application received from certain thrown out hands of the Branch Press at mysore.

The petition is addressed the Supt of ~~Archaeology~~ The Petitioners (8 in number) state that when they were thrown out, they were informed by Endorsement No 1096 of 20-5-02 that they should wait at mysore and that they will be employed there. Though they have been waiting so long, no orders have been received. They pray that, as they are poor and are suffering much, they should be provided with some employment in mysore

Mr. Bhabha has since written a D.O letter dated 17 September 1902, in which he states that 14 Sanskrit Question papers have to be immediately printed on account of the Mysore Oriental Examinations which commence on the 15th November next. He wants that papers were printed at the Branch Press at Mysore under the superintendence of the Curator of the Oriental Library. As the Branch Press at Mysore has been abolished, he does not know where to get them printed. There is no Devanagari type at the Central Press, Bangalore, and he does not know of any private Press having Devanagari type x except the Graduates Association Press which however is not now working well owing to the recent death of Mr. Jaya Rao, one of its proprietors. Mr. Bhabha therefore asks

that Govt may make early arrange-
ments for printing the Sanskrit Kannada
papers either at Bangalore or Mysore.

The Govt. Branch Press at
Mysore, as a separate institution,
was abolished by Govt Order No
16516 dated 8th April 1902 - Most
G.F. 135-92 of the machinery and such of the
members of the establishment as
had more than 5 years' service
were ordered to be transferred to
Bangalore. Two machines and
some type and materials are
left in Mysore in the charge of
two peons. By this arrangement
a saving of Rs. 1444 per annum
has been effected.

On the other hand, the
Inspector General of Education
Complains that the work of the
Oriental Library which was being
done in Devanagari characters
and under the supervision of the
Curator and Pandits of the Oriental
Library, has come to a stand still,
that much of the Kanada Trans-
lator's work which could be
satisfactorily done at Mysore,
where the present Kanada Trans-
lator is now stationed, has to

be

be done at Bangalore, and that much inconvenience is caused in getting printed the examination papers of the Mysore Maharaja College, Maharani's College and the Normal School, which were formerly being printed at the Branch Press, Mysore. The Inspector General accordingly recommended that either the Branch Press at Mysore be re-established or if that could not be done that a separate Press be established at Mysore under the control of the Inspector General, called the "Oriental Library Press" or the "Educational Press" at a cost of Rs: 188 per mensem or Rs: 2256 per annum. This is for Sanskrit and Kanada work alone and does not provide for English work such as printing Question papers &c.

The Question therefore, now is, whether a separate Press for Sanskrit and Kanada work alone at a cost of Rs: 2256 should be sanctioned as recommended by the Inspector General, or a regular Branch Press

as before be opened to provide for all work, Sanskrit, Kanada and English - It seems under the circumstances, desirable to re-open the Branch Press at Mysore, but to have a smaller number of English Compositors than before. In the year 1900 - 1901, the Branch Press showed results as follows:-

	Rs.
Value of work done —	8908
Expenditure ——	4140
Profit.	4768

OFFICE OF THE DEWAN OF MYSORE

REVENUE AND GENERAL, DEPARTMENTS.

Short Office Note.

*Subject Re-opening of the Br Press at Mysore.

Letter No. 196 dy 22nd Oct 190 from the Superintendent Govt Press in the matter

Note

In Govt. Pro: Nos. 5683-5.7 135- dy 15-10-02, the Branch Press Mysore which was abolished by G.O. No. 16516-9.7.135-92 dy 8-4 was ordered to be re opened and the Supdt was requested to give effect to it and report the financial results for orders of Govt. Govt also observed that in making arrangements the Supdt would re-employ the discharged men (when the said Press was abolished)

2) The Supdt in obedience to

*The Office Note should be in black ink. Write only on side of this form. [illegible] may be used in the same file as to whom, each words to denote nature of Subject should be stated, in red ink.

conveyed to him, upon which orders have been issued to reopen the Press from the 1st of Nov. 1902 and to employ certain men as per list (B.) appended. A note list (A) showing those who were previously employed, has been submitted. It is stated that the whole of the establishment is now on a fixed scale and the cost of the same including contingencies (Rs 104) has been reduced from Rs 400/- to Rs 200/- per month; maintaining at the same time the proper amount of efficiency in the discharge of work. A detailed report as to whether the establishment should be increased etc is promised to be submitted after a six months trial to the present arrangement.

3) In list B. 4 individuals other than those who originally belonged to the Press before its abolition have been newly brought in whereas in the list A. 9 men of the old Establishment remain unemployed.

Two out of nine have not
shown as supernumeraries to
be borne on the Central Press
Estt. The necessity of bring
ing 4 new men on list-B when
7 seven thrown out-hands
have still to be provided
is not explained. It is
not also apparent why 2
supernumeraries should
be created. If the cost of
the 2, is not now debited
to the Branch Press, it will
become an additional
charge on the Central
Press. So long as the cost
cannot be done away
with it is the same thing whether
the cost is backed on to the
Branch Press or to the
Central Press.

If it is possible to get
through the work by
employing these 2 in
place of the 4 men newly
introduced in list-B, thus
a ~~continuity~~ continuity of
the old order of things will
be ~~maintained~~ kept-up in
the Branch Press.

I do not see the object of reducing the cost of the Branch Press from 400 to ~~300~~ 200, by increasing the cost of the Central Press ~~staff~~ by employing ~~by taking~~ Supernumeraries. Further, it seems necessary that all the older hands who have claims on Govt should be absorbed before new men are taken on

Reply No. 2559 7-11-02

received

In reply to query why four new men were introduced in the newly opened Branch when known out officials were available, the Superintendent states that only 3 and not 4 have been so brought in. This appears to be correct as it is said that the fourth man is the same person in both the statements being Narayan in one and Narain in another. Of the 3 men J. Narain Rao (No 1 in Sl. B) is explained to be an old hand of the Branch Press Etc though he remained in the Central Press being transferred from the Branch Press sometime before its abolition, and as such preference is given to him and he is made the Foreman; Chelvaiah (No 2 in Sl. B) who happens to be a very old employee of the Central Press is now appointed as selection

Section Holder as none else can be selected from out of the thirteen out-men as per Sl. A; the 3rd man Nanjundaya (new) in Slt B is chosen as one of the old officials are to qualified to do the duties of a turner

Regarding the 2nd query whether a foreman on Rs 30/- in place of one on Rs 60/- as formerly, is enough to supervise, he states that if is sufficient as the work will be reduced by the introduction of the fixed instead of the Piece work Sys.

The 3rd query why should the Central Press have 2 supernumeraries, it is said that Hanumanth Ram (No 2 in Sl. A) will take the place of T. Narain Ram (No 1 in B) in the Central Press, and will not be considered as a supernumerary; but the other Ranganadam (No 1 in Slt. A) will be retained as supernumerary till he is absorbed in the Central Press

The last query
the first two men in the
Stt B are officials trans-
ferred from the Central
Press, is answered in
the affirmative.

The questions raised
have been pretty satis-
factorily answered

It is a matter for
consideration whether
Lanyan adam medalin
should, if retained as
supernumerary, be kept
on in the Central Press
or be transferred to the
Branch Press where he
was long employed and
where his knowledge
and experience will be
more useful. If he con
tinues in the Branch
Press till he is absorbed
the new men would have
mastered the details
and the Press itself
would ~~have been~~ be placed
~~in~~ on a thorough working
order. The second point

for consideration is whether a fixed Establishment or Piece work would become profitable to Govt. No statistics are given to show the difference in cost between the two systems of work.

2853
15/11/10 Submitted to Secretary

The main features of the Superintendent's proposals are ——

(1). that the system of "piece work" is done away with in the Branch Press.

(2). that the 7 men (all piece work men) who had less than 5 years' service are all thrown out, as it is considered that there is no work for them

(3). that the former Foreman Ranganadam Mudaliar (on pay Rs 60) will be kept in the Central Press as a Supernumerary, to be soon absorbed in the fixed establishment.

The Superintendent has given reasons on these points as shown in the preceding paragraphs. It will also be seen that the Supt. thinks that the best possible arrangements have been made and he promises to report after 6 months on the working of the new staff, after which the establishment may be strengthened if considered necessary

Under these circumstances, and considering the fact that the Superintendent is responsible for the efficient working of the Branch Press at Mysore, I think that his proposals may be sanctioned.

The Supdt has proposed Contingencies at 10 Rs a month for the Branch Press. But it will be seen from Pol Dc 8781-820 Mat 118-92 dated 29th Jany 1900, that the amount formerly allowed for the purpose was only 5 Rs per mensem. The same amount (Rs 5) may now be sanctioned

21/11/02

Please draft to the above effect & submit for approval to the Dewan through the 2nd Councillor.

All this correspondence since 2nd was last alloted an opportunity of dealing with the subject - in quite new to me

I am not sure that this procedure on the part of the Secretariat is correct. I do not understand

the proposed arrangement regarding the Foreman - Asman on Rs 30 is deemed sufficient - If so why should we have two men one on Rs 30 at Mysore & a supernumerary subject to absorption at Bangalore on Rs 60 ? Why not send the latter back to Mysore, on his present pay Rs 60 (if this a permanent one) and replace him by a man on Rs 30 when some other suitable opening is found for him. Are we to have wasted Rs 30 not Rs 60 but Rs 90 ?

C.

Submitted to Secy

On consulting the Supdt Govt Press, personally, he says that he is keeping the 60 Rs man at Head Qrs as there is not enough work for him at the Branch Press, Mysore, and that he has more important work to do here at Bangalore.

The draft put up by the Office is re-submitted for approval -

In a subsequent comn (No. 314 d: 5th Dec 02)

The Supt says that 3 out of the 4 supernumerary hands have been already absorbed in the permanent establishment, and that only Ranganadam Mudaliar (pay Rs 4 nee to be on 1st April 1903) remains who will be absorbed as a vacancy occurring —

13/2/03

The keeping of the supernumerary man is seems to be superfluous

The Supt called yesterday & represented that the men cannot be paid unless orders are passed in this.

Submitted to the Dewan through the 2nd Councillor —

I quite agree — No supernumeraries are required — Please obtain the Dewan's orders and do the needful — I see in this note no answer to my note of the 11th December 1902 that in all the correspondence that has been carried on since I was last allowed an opportunity of dealing with the subject on 23/9/02 it is quite new to me.

I am not sure that the Pro-
-cedure on the part of the
Secretariat was correct.

Can I not ask that
all papers relating to the
Delhi Mission under me be
submitted to me before further
action is taken? I am quite
willing that the Secretariat be
empowered to deal with
routine papers - such
empowerment may, I think be
left to me instead of being
assumed by the Secretariat

The Supdt requests (vide

the date of its effect ~~being~~

for reasons stated. It
is desired that effect
to the order should be
given from 1st April 03

The plea/ reason for
this reference seems
to be due to the fact
that a few employees
who have been working
in the Branch Press
at Mysore since 1st Nov 02
the date of its revival
under his orders, will
have, not only to forfeit their annual
increases and but also
to refund the same, if
~~the~~ retrospective effect
is given to the order
of 12th March 03.

It is suggested that it will work a great hardship on these poor officials who are hard worked and that the additional cost involved is no great matter to Govt.

If the Supdts proposal has to be sanctioned, Ramanadam Mudaliar will have to be treated as supernumerary attached to the Central Press from 1st Nov. 02 to 31st March 03. However, it is not known whether there is any corresponding saving in the Press Estt at Bangalore. If the Supdt can find his way to meet the extra charge involved from out of the savings, the requirement may be easily complied with. If not to

supplemental grant will have to be made

The procedure in having permitted the officials to draw increases in the absence of Govt orders has, it is submitted, led to this reference to Govt.

Such without case.

Apart from the above question, the Supdt will now, have to be requested to submit to the Comptr & retappropriation statement for Rs 970/- as required by the Comptr in his No 5302 of 20-3-03

What the superintendent states is quite right. Every endeavour will, however, have to be made to minimise extra expenditure; but in an urgent work of this kind (printing of the Dasara Address) it may not be always possible and expedient to look only to strict economy. The matter and figures (financial accounts) required for the address cannot be secured so soon after the ~~year~~ close of the official year (on the 30th June). In spite of repeated requisitions and reminders, the bulk of the information from the Heads of Departments is seldom received earlier than a few days before the date fixed for the reading of the Address. The Comptroller's accounts are invariably received late as the accounts for the year could not be closed soon. It becomes necessary to get the whole thing printed in a great hurry within short space of time. Work also at high pressure will certainly involve additional charge. But there seems no way to avoid this. If directed the Supdt will be informed accordingly.

I know as a matter of fact that the Foreman of the Branch Press at Chitradurga is a good & hard working man who deserves advancement. The increase for which he has been recommended is only Rs 10 - The aggregate increase proposed for 4 others is only Rs 4 - A substantial reduction has been proposed, from which to meet these increases -

Bangalore.4th.April /0

Dear Mr. Hume Wright.

In letter No. 525 dated 16th. March 1903 you suggest that the order of Govt. about Branch Press Establishment should be given effect from 1st.April 1903 and not 1st.November 1902 and that Ranganadam should be borne as supernumerary between these dates on Rs.55 a month. If the order is altered to take effect from the latter date,how will you be able to pay the other men (leaving out supernumerary Ranganadam) between 1st. November and 1st.April. The matter is not clear and Ishall feel obliged if you will explain it early.

Yours sincerely.

Letter No: 283 dated 20th September 1888, from the Superintendent, Mysore Government.

Order thereon Camp No: 1995-98

Mysore 8th November 1888.

The Jagannmohan Press maintained at Mysore from Palace Muzrai Funds has been abolished from the 1st November 1888. In its place, a Branch Government Press will be established with the materials belonging to Government which had been lent to the late Palace Press. All work in the Branch Press will be carried out on the piece work system, any temporary hands required being employed and paid for on monthly bills, checked by the Superintendent, Government Press, Bangalore. The Branch Press may also undertake private work of an educational nature on full payment according to the piece work system.

2. The Branch Press at Mysore will be under the immediate charge of Rajappa and subordinate to the

Central Press, Bangalore. His salary which has been fixed at Rs:30 per mensem from 1st November 1888, will be borne from Provincial Funds and charged to the head "Stationery and Printing". The Comptroller is requested to issue needful instructions to the Deputy Commissioner in charge of the Mysore District Treasury for payment of Rajappa's salary from the Mysore District Treasury, on monthly bills countersigned by the Darbar Bakshi Mr: A. GOVERNMENT OF MYSORE.

No. 801. G.P. 1-88-6.

From

The Superintendent,
Mysore Govt: Press.

To

The Chief Secretary
to the Dewan of Mysore.

Sir,

With reference to Government Proceedings Camp no: 606—10½ dated 15th ultimo, sanctioning an Establishment for the Branch Press at Mysore, I have the honor to state that the Foreman of the Press has brought to notice that there is no Proof Reader in that Press, and that it was hitherto the practice to send all proofs to those who gave the work, which necessarily caused long

long delay, and that he could do
the work of a Proof Reader in addition
to his own with the assistance of a
Copy Reader, and solicits that an
additional hand on Rupees 20 may
be sanctioned for the Branch Press
Establishment. Taking into consider-
ation the number of Compositors
at present Employed in the Branch
Press, and the probable quantity of
work that can be turned out, I am
of opinion that a hand on Rupees
10/- (to serve as Reader and Copyist)
will suffice for the present - pending
further report after six months.

2. I beg also to bring to
notice - that in the Proceedings
above quoted, no allowance has
been made for contingencies. As

this

this is an item, which is indispensable. I recommend that a provision of Rupees 5/- per month or Rupees 60/ per annum may be sanctioned for contingencies of the Government Branch Press at Impne.

I have the honor to be

Sir,

Your most obediant Sarvant,

from their agency, while it will materially help to dispose of the works speedily. I am of opinion that there is no necessity to sell school books in this office or in the Branch Press at Insore, while special facilities exist in the Book selling Depôts of the Education Department — nor is it convenient for the Press to do so as it would entail a deal of work in keeping a system of Accounts, and Check &c.

2. With reference to para 2 of the Proceedings under reply, I beg to state that the valuation statement of the stocks will be submitted after I have had an opportunity of inspecting the items in person

15th November 1891 regarding the Press
at Jagannmohan, I beg to inform you th
copies of 21 books published at the Press
have lately been transferred to the
Government Central Book Depot. The
following books however which are
included in the Maharani's School Ser
have apparently not been purchased
Government nor transferred to the Dep
either because copies of them were in a
unfinished state at the time of the
above order or because they were on

" Stotra Sangraha Parts I & II

" Katha Saptati.

" & Paka Sastra

All these books are still in use in the Maharani's School and several other Girls' Schools of the Province. I request therefore you will be good enough to take early steps for the purchase of the copies of the above books that may now be available at the Press. I understand that copies of several of the above books though they were in an unfinished state at the time of the above order are now ready for sale. I regret I have no funds left from the allotment in the Educational Budgets for the purchase of books, which I may utilise for buying the above books.

Sir,

With reference to Government Proceedings Camp no: 741-3 dated 3rd December 1891. ordering the purchase of certain Educational works from Mr: A. Narasimha Aiyngar R. B., I have the honor to submit, that of the 21 works taken over from Mr: Narasimha Aiyngar 5 works as noted in the margin are to be bound at Government cost. A sum of Rupees 310 was deducted on this account from the price -

No:	Names of works.	No: of Copies to be bound
1.	Padyasangraha Part II	950
2.	Sanscrit First Book	1250
3	Kannada Bhartruhari	730
4	Damayanti Swayamwara	900
5	Karna Parva	310
	Total	4140

hand for these works. From the list it appears that 4140 books are to be bound. I therefore solicit sanction to purchase the requisite binding materials for these unbound books from the amount which has been deducted, viz Rupees 310-0-0, and which is available.

Bills will be submitted, after purchasing the materials applied for, by the Foreman of the Branch Press where the books are being bound.

Since writing to you last regarding the Tal of School books belonging to me, required by the Education Secretary I find that according to an order I had given before leaving

Mysore materials for
binding those books
had been purchased
and a portion of the
books are already
bound, and the re-
